Subject: Appreciation letter for Phase I implementation

It is really admiring that you have completed the project Phase – 1 for MS Dynamics GP 10.0 just within the desired time frame. The Citizens Foundation (TCF) must congratulate Evincible Solutions on this accomplishment. Today, we have seen everywhere that the most important and urgent projects are not even completed at the right time. Whereas living within such a busy schedule, you have done a great job. We also feel proud to be associated with you in the process. This will keep a long lasting impression and joy of achieving some planned program timely.

This was a dream project for us for long time and with your sincere efforts we have finally achieved it. This will inspire everyone in the team to learn from you how such an enormous job can be timely and nicely completed. You have really done a great job. **Congratulations.**

Your project team members have done a commendable job and have given us total satisfaction and high confidence in implementation of Phase 1.

It was an extremely difficult task to re-implement and redesign the whole system in such short span of time. Your people have successfully done what was desired by TCF. They have modernized, customized and designed the application according to our actual need. Your whole company has done an excellent job in bringing out the flavor and charm that was lost earlier. Your developers, too, have successfully captured the whole requirement and delivered their best.

So, we thank you and your team for all the hard work that they have put in. We would like to convey our appreciation to all of your project team members.
