

Microsoft Dynamics GP in the Cloud

Microsoft Dynamics GP is the ideal fit for diverse businesses that require flexibility. Dynamics GP is designed to be a simple, scalable system that grows with your business. Microsoft Dynamics GP is also the ideal fit to be deployed in the Cloud using Microsoft cloud platform Azure. Whether it's an existing GP customer looking to lower their TCO, or a new customer looking for a rapid deployment, Cloud Dynamics GP will meet their needs with ease and speed.

What is Microsoft Azure?

Microsoft Azure is a comprehensive set of cloud services that developers and IT professionals use to build, deploy, and manage applications through our global network of datacenters. Microsoft Azure is an open, flexible, enterprise-grade cloud computing platform which allows businesses of any size to build, deploy, and manage applications and services through a global network of Microsoft data centers. In addition, Azure provides data backup and disaster recovery services.

GP on Cloud for you!

We have combined cloud hosting platform with a subscription-based license model for Dynamics GP. Using this model organizations can operate Dynamics GP entirely in the cloud.

With low monthly fees, Dynamics GP in the cloud makes a convincing presentation as a mature, feature-rich ERP platform with all of the modern advantages of a cloud-based application platform.

Our Packages

Cloud Flexy
